AS 260a Intraoral Scanner

Essential quality with exceptional value.

Brand New Design

With a modern and sleek design, the device is imagined with a mindset that centers around the users.

- **Super Light Weight**

As light as 175g, AS 260a aims for a burden-free practice.

- **Detachable Cable**

Designed to simplify operation and facilitate replacement.

- **Streamlined Design**

Ergonomically engineered for a modern feel and comfort of use.

- **Portable Packaging**

Delivered in a minimalized package for grab and go occasions.

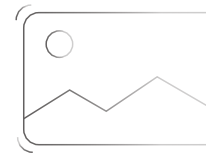

Scanning Elevated

A flagship intraoral scanner that is designed to scan like never before, with a full upgrade in speed, depth of field and many other features.

Upgraded Hardware

Optimized optical structure brings better data quality and detail, with a TrueColor mode delivering vivid impressions while ensuring precision and accuracy.

Fast Data Transmission

A full arch scan takes as fast as 20 seconds to finish, delivering a speedily smooth experience with no breakoffs or laybacks. Scanning is as easy as it gets.

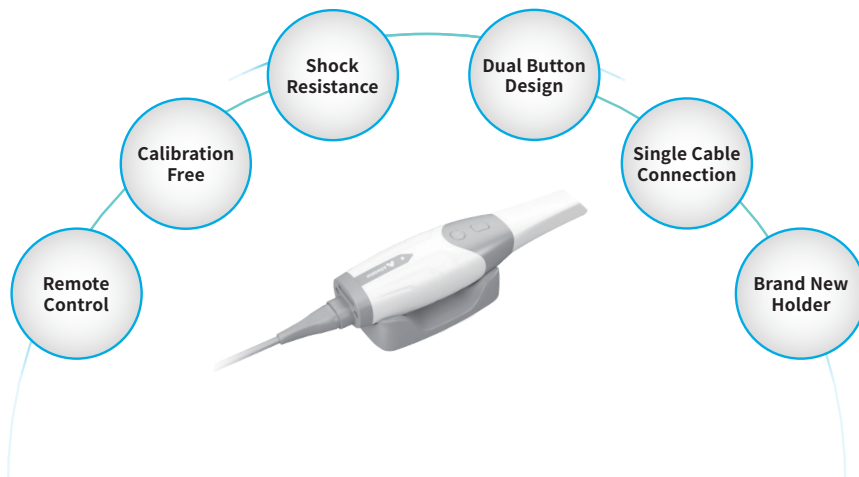

Outstanding Accuracy

A 20- μ m full arch scanning accuracy ensures solid data reliability for clinical practice, with an exclusive algorithm that effectively leverages extensive information.
